ITDOSE INFOSYSTEMS

Pioneering Innovation in Healthcare IT Solutions

At ITDOSE., we embody a dynamic vision driven by a young and passionate entrepreneur committed to crafting and delivering cutting-edge business solutions. Our relentless investment in Research and Development empowers us to conceive innovative answers to the ever-evolving demands of businesses, ensuring they remain technically advanced, sustainable, and consistently ahead of the curve.

Commitment to Excellence

In close collaboration with hospitals and diagnostic centers worldwide, we specialize in designing, implementing, and supporting state-of-the-art IT solutions that are both progressive and affordable. This collaborative approach allows us to stay attuned to the specific needs of our clients, providing bespoke solutions that elevate operational efficiency and patient care.

Why Choose ITDOSE?

Innovative Solutions: We thrive on innovation, leveraging the latest technologies to create solutions that set industry benchmarks.

Global Collaboration: Our global network ensures a diverse perspective, allowing us to deliver solutions tailored to diverse healthcare landscapes.

Reliability: Our services are built on a foundation of trust, earning loyalty through a commitment to excellence and continuous improvement.

Affordability: We believe in making advanced IT solutions accessible to all, ensuring cost-effective implementations without compromising on quality.

Commitment to Excellence

Partnering with ITDOSE INFOSYSTEMS means aligning with a company that prioritizes your success. Our solutions are not just about meeting expectations; they're about exceeding them consistently.

Hospedia™

ITDOSE HOSPEDIA

Revolutionizing Hospital Management

ITDOSE Hospedia stands as a pinnacle in hospital management, offering a comprehensive web-based ERP solution meticulously crafted to enhance the patient treatment flow while optimizing the performance of medical staff. Developed with a visionary approach, Hospedia is modular, ensuring enduring benefits and optimal returns on investment, adapting seamlessly to evolving technological landscapes.

ITDOSE Hospedia is a tailor-made ERP solution that not only meets but exceeds the expectations of modern hospital management. With multi-user and multi-site compatibility, rapid deployment capabilities, and comprehensive user security, Hospedia ensures a seamless workflow management experience.

Hospedia Highlights

Patient & Medical Staff-Centric
A unique paradigm catering to both recipients and providers of healthcare.

Network Integration
Utilizes a network of computers to efficiently gather, process, and retrieve patient care and administrative information, satisfying user functional requirements.

Decision Support System
Aids hospital authorities in developing comprehensive healthcare policies through informed decision-making.

Elevating Hospital Administration
Combines clinical and financial information systems for enhanced hospital administration and patient healthcare.

Electronically Stored Medical Records
Ensures accurate and easily accessible patient records, supporting statistical requirements and research.

Centralised Information System
Designed for swift delivery of operational and administrative information, facilitating quick decision-making.

Hospedia Advantages

Better Patient Care Management
Enhances overall patient care through streamlined processes.

Timely Accessibility of Clinical Information
Ensures quick access to critical clinical data for informed decision-making.

Cost Reduction in Healthcare
Contributes to cost efficiency, making healthcare more accessible.

Quick Decision Making
Empowers healthcare professionals with timely and accurate information.

Adaptability to Future Challenges
A future-proof solution that evolves with the dynamic healthcare landscape.

Data Tracking and Workflow Management
Avoids bottlenecks and enables seamless data tracking for efficient workflow management.

Ease of Use
User-friendly interface and intuitive design for effortless navigation and utilization.

Discover the power of ITDOSE Hospedia – where innovation meets efficiency for the future of healthcare.

ADITIONAL SERVICES

Hospedia™

Advance Machine Interface

Hospedia seamlessly integrates with various medical devices and equipment, allowing real-time data exchange and monitoring. This feature enhances patient care by providing instant access to critical patient information and diagnostic data from connected machines.

ABDM Integration

Hospedia transforms data into actionable insights. It enables healthcare organizations to analyze large datasets, identify trends, and make data-driven decisions to improve patient care, resource allocation, and operational efficiency.

SMS/WhatsAPP/Email Alerts

Hospedia offers a versatile notification system that sends alerts, updates, and reminders to patients, healthcare providers, and staff through SMS, WhatsApp, or email. This ensures timely communication, appointment reminders, and critical alerts, enhancing patient engagement and care coordination.

Patient Portal

Patient portals empower patients to access their health records, communicate with healthcare providers, and engage in their care plans. They enhance patient experiences and self-management.

Third Party Integrations

Hospedia excels in integrating seamlessly with third-party solutions like PACS, CRM, accounts, and ERPs. This ensures streamlined workflows, swift diagnostics through PACS, enhanced patient engagement via CRM, and comprehensive financial oversight. Hospedia delivers an interconnected healthcare management experience for efficient operations.

Mobile Applications

Hospedia transforms healthcare with mobile apps for patients, doctors, and staff. Patients access user-friendly features, doctors manage patients in real-time, and hospital operations are streamlined through an app. This suite fosters an interconnected healthcare ecosystem, enhancing communication, patient care, and operational efficiency.

1000+ Smiling Clients

650+ Software Replacements

16 Yrs Industry Experience

99% Customer Retention

150+ Team of Engineers

15 Country Presence

Optimize processes by integrating Hospedia with ERPs, PACS & CRM systems.
